

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD  
LOS ANGELES REGION  
AND  
U.S. ENVIRONMENTAL PROTECTION AGENCY  
REGION IX

482<sup>nd</sup> Regular Regional Board Meeting  
Thursday, April 7, 2005

**ITEM NO. 14**

ORDER NO. R4-2005-XXXX  
NPDES NO. CA0109991  
WASTE DISCHARGE REQUIREMENTS  
FOR  
CITY OF LOS ANGELES  
(Hyperion Treatment Plant)

**CHANGE SHEET**

(Additions are underlined, deletions are lined over.)

**REVISED ORDER AND PERMIT**

**Agenda page 14-167 (Order page 48)**

This change is consistent with USEPA's general guidance that recommends a zero concentration for constituents reported as "ND" or "DNQ" for compliance purpose.

- J. In calculating mass emission rates from the monthly average concentrations, for compliance purpose, use one half of the method detection limit for consider constituents reported as "Not Detected" ( ND ) and the estimated concentration for or "Detected but Not Quantified" ( DNQ ) to have concentrations equal to zero for the calculation of the monthly average concentration.

**REVISED MONITORING AND REPORTING PROGRAM**

**Agenda page 14-218 (MRP page T-7)**

The City of LA expressed concern about the newly proposed language in the revised MRP concerning their participation in Santa Monica Bay Monitoring Consortium. Therefore, USEPA and Regional Board staff revise the language accordingly.

- L. The Santa Monica Bay Restoration Commission's Technical Advisory Committee has agreed to develop a detailed workplan outlining the monitoring surveys required to complete implementation of the Comprehensive Monitoring Program framework developed in 1993. This workplan should include formulation of management goals and objectives, identification of suitable monitoring indicators, detailed sampling designs, and cost estimates for each monitoring component. Upon completion of this workplan, USEPA, and the Regional Board, affected NPDES permit holders, and other interested

~~agencies and stakeholders will develop an implementation plans to collaboratively fund these programs and determine each party's level of participation. It is anticipated that funding for these programs from the City of Los Angeles will be supplied through a combination of modifications to the Hyperion Treatment Plant's Monitoring and Reporting Program, including redirection of existing effort and/or imposition of new monitoring efforts relevant to the Hyperion Treatment Plant's discharge. Redirection of existing monitoring requirements and/or the imposition of additional monitoring efforts are subject to a hearing before USEPA and the Regional Board. requirements, to the Monitoring and Reporting Programs of the City of Los Angeles' Hyperion Treatment Plant and other NPDES dischargers into Santa Monica Bay and linkages to existing programs performed by other agencies or interested parties.~~

### **REVISED FACT SHEET**

#### **Agenda page 14-43 (Fact Sheet page F-25)**

After further verification of monitoring data for chlorine residual, USEPA and Regional Board staff found that the sample numbers in the second sentence of the section indicated below should be revised.

#### **Additional analysis for chlorine residual**

There are ~~seven~~ nine detected results out of a total of ~~2369~~ 2007 samples during that period.
